RECOMMENDATION OF HEALTH BOARD CUTS NO FIGURE

R. D. Barnett Treated Like
"A Smith Democrat" By
The Caucus.

Al Foreman Puts Skids Under
J. O. Keebler.

ROBERT HICKS LANDS AGAIN.

That politics is politics was demonstrated at a caucus of the Democratic members of the general council last night, which turned down R. D. Barnett, sanitary inspector, who was recommended for re-election by a non-partisan board of health and the city health officer, and slipped the rollers under J. O. Keebler, clandestinely accused of being a "Smith Democrat," though Keebler has not been active in politics.

The slate settled upon by a caucus of the entire Democratic side of the joint council, excepting Alderman Sherrill, is:

City Physician—Dr. W. J. Bass.
License Inspector—Robert B. Hicks.
Market Master—Albert Sencer.
Superintendent of Light Plant—W. H. Force.

Meat, Milk and Live Stock Inspector—Dr. Robert F. Fisher.
City Engineer—James F. Wright.
Wharfmaster—Capt. Frank Brown.
Sewer Inspector—A. Franke.
Sanitary Inspectors—J. G. Whittis and John L. Galtner.

How It Was Done.

It was around the person of Robert Hicks, it will be remembered, that the acrimonious fight took place last year when Dr. Harry Williamson was succeeded by Dr. W. J. Bass as city physician, and Mr. Hicks was exiled from the city hall to make way for Ed Hubbard as license inspector. Friends of Bass and Hicks made common cause at this time and peace reigns. At the same time Councilman Al Foreman put one over himself, when he secured the nomination of W. H. Force, a one-armed man, for superintendent of the city lighting plant, in the place of J. O. Keebler, who has been in charge since the plant started. Mr. Force was for a short time in charge of the plant at Metropolis. Undoubtedly another electrician will get a position at the plant as assistant.

It is stated that Keebler has not been sufficiently active as a partisan to suit the organization. Force won by a vote of 6 to 5 against Keebler in the caucus.

Dr. W. J. Bass, Capt. Frank Brown and A. Franke, who are serving now, were nominated without opposition. Robert B. Hicks, formerly license inspector, and an active Democratic worker, was nominated over Charles King. Albert Sencer formerly was a policeman. Dr. Robert F. Fisher is a partner of Dr. Ed Farley, the present milk, meat and livestock inspector. John L. Galtner is at present a sanitary inspector and J. G. Whittis last winter was opposed to the Democratic committee and joined a few Democrats who ignored the regular Democrats and formed a separate organization.

Those who attended the caucus were: Aldermen Durrett, Hannan, Petter, Lackey and Stewart, and Councilmen Hazin, McCarthy, Wilson, Kreutzer, Lalley and Foreman. Alderman Sherrill was absent.

Two Surrender to Police.

As a result of the riot on Mill street, in Mechanicsburg, Thursday night two have surrendered to the police on charges of malicious shooting with intent to kill. This morning Andy Starks went to the police station and gave himself up and was lodged in the county jail. Wesley Pemberton surrendered yesterday and both will be given a hearing Monday morning, to which day the cases were continued. Pemberton accuses Starks with the shooting and also Alex Travis, whose head was singed by the ball. The case against Pemberton, charged with shooting, was brought up yesterday afternoon.

FARMERS' UNION OF COUNTY IS MEETING

A county meeting of the Farmers' union was held today at Lone Oak. A large representation of farmers was present and a barbecue dinner was served at noon. State Secretary R. L. Barnett and S. H. Jones, of the state board, responded to speeches. Beginning December 5, Mr. S. H. Jones, of the state board, will make a number of speeches in Livingston county in the interest of the Farmers' union.

United States Consul Reported in Prison and New Orleans Hears That President Zelaya Surrenders

Rumor Cannot be Confirmed
But All Attempts to Com-
municate With the Govern-
ment's Representative Fail

New Orleans, Nov. 27.—Dispatches received here today say Vice-Consul Caldera at Managua is imprisoned by the Zelayan forces. No confirmation is received. Dispatches say he is missing and it is believed he is one of the many prisoners held by Zelaya. Friends tried to communicate with him, and were unsuccessful. The reason alleged in today's dispatches for his imprisonment, is a desire of Zelaya to hide from the United States government cruelties that attended the execution of Cannon and Groce.

It is said the Zelayan government opened letters to Caldera, asking him for details of the execution. According to statements of passengers aboard the steamship Parsmina, they were captured on neutral ground, yoked together like oxen for hours, and scourged with a cat-o-nine tails. Efforts are being made here to send searching parties for Caldera. It is said Estrada's government also is searching, and reporting it can't find a trace.

Has Zelaya Surrendered?

New Orleans, Nov. 27.—Many rumors today say Sanchez has been captured by Zelaya, who surrendered last night. It is impossible to confirm the rumor. Friends of the Zelayan government say it is false. Late messages from Bluefields say Caldera could be communicated with by Estrada forces anywhere, unless he was shot or imprisoned.

Report is Sent.

A cable received from Bluefields this noon reports advice received saying that Caldera succeeded in communicating with the state department at Washington and his report substantiates the stories of barbarous cruelties preceding the execution of Cannon and Groce. The report, it is said, was forwarded some days ago. Nothing is known of the vice-consul at present, although rumors are that he is in prison.

Agent is Hopeless.

Louis De Trileme, confidential agent of Zelaya, arrived here today on his way to Paris, where he will go to negotiate a loan of two millions, which tentatively was promised the Nicaraguan government. He told L. E. Bentley, collector of the port here, that, although he wanted Zelaya to win, he thought the cause hopeless. "I expect Zelaya to be overthrown within 60 days," was the frank expression of the president's agent.

State Department Active.

Washington, D. C., Nov. 27.—The signs of an unusual activity over the Central American situation today at the state department, which it is believed presages important announcements within the next few days. Several dispatches were received from Managua concerning the execution of the two Americans, Cannon and Groce.

AMERICAN PLAYERS DEFEATED AT TENNIS

Sydney, Nov. 27.—The Americans were both beaten in singles at tennis by Australians today for the Davis trophy. Norman E. Brooks beat Maurice E. McLaughlin, 6-2, 6-2, 6-4. A. E. Wilding defeated Melville L. Long, 6-2, 7-5, 6-1.

FEUD BATTLE ENDS IN DEATH FOR TWO

Houston, Tex., Nov. 27.—As the result of an old feud, Paul and Lee Dunham, brothers, were shot and killed today by Edward Weber. The brothers were walking a road outside of the city limits and met Weber. The shooting followed. Sam Weber, brother of Edward, was shot Tuesday and his jaw torn away by a bullet. He is now in a precarious condition. Weber claims he was shot by one of the Dunham boys. The families own adjoining farms and quarreled over a property line. All concerned are employed on their fathers' farms. Edward Weber said he had sworn revenge for the death of his brother. He was arrested.

MAY BE ASSAULT.
Pittsburg, Kan., Nov. 27.—Last night William Bork, a farmer, his wife and 3-year-old son, were shot to death five miles north of here. Bork's body was found near his home, his wife's two hours later a hundred yards away, and the boy in a buggy an hour later, where he was carried three miles in a driverless vehicle. There are indications of a criminal assault on the wife. The family was visiting neighbors and left at 8 o'clock last night.

HOME AT SALEM.

Wife of Prominent Livingston County
Man is Buried Today.

The sad news of the death of Mrs. W. M. Grassham yesterday at her home in Salem has been received here. She died from tuberculosis and had been ill for some time. She was the wife of Mr. W. M. She was a woman of lovable personality and had been married about a year. The funeral was held today at Salem.

The funeral and burial of Will Haffey, the former fireman, took place this morning at 9 o'clock. The funeral was held at the St. Francis de Sales Catholic church, the Rev. Father H. A. MERCHANTS PREPARING FOR CHRISTMAS TRADE.

Bank clearings this week were \$608,916. With only five business days the bank clearings make a good showing this week. Business has been only fair with the merchants, as the pleasant weather has not been favorable to a heavy trade. However, merchants are busy preparing for the holiday trade, which will begin soon. Paducah merchants expect a heavy Yuletide trade, and have selected heavy stocks for the holidays. Tobacco is moving freely, although all of the tobacco houses have not opened.

Wants a Divorce.

Cruel treatment is the ground for a divorce applied for by Maggie Atkins from her husband, Alvin A. Atkins. She alleges for several months he has treated her cruelly and recently says that he removed the furniture and did not leave her a bed to sleep upon. The couple was married July 13, 1901, in Smithland, and separated November 1, 1909. She sues for alimony to the extent of \$1,100.

The Weather

SUIT OF WALTERS IS DISMISSED IN CIRCUIT COURT

Citizens' Savings Bank's
Contention is Upheld by
Judge Reed.

As to Possession of Sinking
Fund.

ITS ANSWER IS DEEMED GOOD.

Suit of George W. Walters to obtain possession of the money deposited in the Citizens' Savings bank by the city sinking fund commissioners, was dismissed this morning by Circuit Judge Reed, when, after their demurrer was overruled, Walters' attorneys said they had no grounds to offer further than those presented in their petition. Judge Reed said, that being the case, he would decide for the defendant.

According to the custom, the sinking fund has been disbursed to the city treasurer in accordance with orders of the finance committee of the general council, and the money has been deposited by the commission in a local bank at four per cent interest. The commission is composed of the mayor and the presidents of the two boards of the general council.

The Citizens Savings bank gave bond for the custody of the money, which was deposited as turned over to the commission for a year at four per cent. Mr. Walters took the position, that, as city treasurer, after having collected the money and credited it to the sinking fund, he should have possession of the money and place it in the city depository.

He made demand for the money and brought suit. The bank answered that Mr. Walters had no right to it; but that the bank is able, ready and willing to pay the money over to the proper party to take possession of it when due. Walters demurred to the answer and Judge Reed overruled the demurrer.

The court then announced that, unless Mr. Walters had some further reason or proof to show why he should have possession, the case would be dismissed. Hon. J. K. Hendrick, of the firm of Hendrick & Corbett, attorneys for Mr. Walters, said they had nothing further to offer, besides what was shown in the pleading. The case was then dismissed.

J. D. McQuot is attorney for the bank. Mr. Walters says he will appeal from Judge Reed's decision.

SMEDLEY REFUSED NEW TRIAL TODAY

HAS NOTHING TO SAY WHEN
SENTENCE IS PRONOUNCED
ON HIM.

Motion for a new trial in the case of Hiram Smedley, former county court clerk, was overruled this morning by Circuit Judge William Reed, and Smedley was sentenced to six years in the penitentiary. Following the judgment his attorneys made a motion for an appeal, which was granted. When judgment was pronounced upon him Smedley was silent and shook his head when asked if he had any reason why judgment should not be sentenced upon him. While Judge Reed pronounced the judgment Smedley nervously moved his fingers along the bench.

BIG BASEBALL DEAL IS MADE

PHILADELPHIA CLUB IS PURCHASED BY A SYNDICATE.

Murphy Was Present But Not in the Deal—Reported John Kling Will Manage Team.

GENTLEMAN MAKES A DENIAL

Philadelphia, Nov. 27.—The Philadelphia National league baseball club was sold to a syndicate, whereof Horace S. Fogel, of Philadelphia, is head. The price is said to have been \$350,000. As soon as the stock was transferred the representatives of the syndicate proceeded to Camden, N. J., where the club incorporated and elected Fogel president; William Conway, secretary, and Frank S. Elliott, treasurer. These, with John A. Schwartz and Thomas Curley, comprise the directors. President Murphy, of the Chicago club, was present to see that the provisions of the National league constitution were properly observed.

He denied being financially interested in the new management. The Philadelphia club was formerly owned by Clarence Wolf, banker; James P. McNichol, politician, and the late Israel W. Durham, political leader.

An offer of \$15,000 was made to Murphy for the release of John Kling, providing the National commission would re-instate the famous Chicago catcher.

Fogel has been sporting writer on Philadelphia newspapers and at different times managed the Indianapolis and New York National league clubs.

Kling Not Informed.

Kansas City, Nov. 27.—"I know nothing of the deal by which I am

to become manager of the Philadelphia club," said John Kling. "It is not my intention to play baseball, or be associated with a club next year. Of course I would change my plans if sufficient inducements were offered. In order to become manager of the Philadelphia team, I would have to be trained to that club. Murphy has not intimated to me that he contemplated that."

Will Take No Action.

Cincinnati, O., Nov. 27.—President Herrman, of the National baseball commission said concerning the proposition that the Chicago National club would release John Kling to Philadelphia.

"Kling is ineligible at present, but the commission will take no action unless he starts playing with Philadelphia or any other organized team. Then the case will be taken up."

Herrman said that from conversation he had with Murphy recently he believed the Chicago magnate was interested in the Philadelphia deal.

Charles P. Taft, owner of the Chicago National club, said that he did not know whether Murphy was interested in the Philadelphia deal.

News of Theatres

AT THE KENTUCKY.

Saturday (matinee and night)—"The Merry Widow."

"The Merry Widow."

That prurience is not essential to prosperity on the musical stage, is proven by the world-wide success of "The Merry Widow," the international success. In all the cities of Europe save Paris, "The Merry Widow" is a craze. Here is success without suggestion, popularity without prurience, and lifting tunes free of the libidinous. All the world loves a lover, but not in any nook or corner of the universe is there affection for the perverse in passion and the despoilers of sex romance. The public in the end support cleanliness.

The company of artists which Mr. Savage is sending here have helped make "The Merry Widow" the sensation of this country, most of the principals having played at the New Amsterdam theater in New York city during the long run of one solid year. Miss Frances Cameron, the Hungarian prima donna, comes direct from New York city to open this engagement at the Kentucky theater on Saturday, December 4. Miss Cameron has been singing the role in New York, Chicago and Boston. Mr. Charles Meakins, the handsome Prince Danilo, who has the record number of performances in this country, will be heard in his wonderful success, the part of Danilo. Those prominent in the company of 100 people are Miss Anna Busseri and Messrs. Robert E. Graham, John Thomas, Misha Ferenzo, F. J. McCarthy, Charles Kaufman, M. J. Briggs and Carl Schulte, the well known director of the "Madam Butterfly" grand opera orchestra.

At The Star.

Every once in a while there appears upon the southern vaudeville horizon an act that is miles ahead of its environment. Such an act is that offered by the Howze Sisters, two plump, roly-poly, rotund girls of probably ten and eleven years of age. These children sing popular numbers in a manner "somewhat different." On Monday evening at the Shubert theater, New Orleans, they "stopped the show" receiving five encores and taking twice as many bows. The Howze Sisters form the best juvenile duo that has appeared in the south in a long, long time, and considering the talent stringency apparent in the better grade of vaudeville, they ought to be in constant demand.

The Howze Sisters will be seen at the Star next week.

Dun's Review.

New York, Nov. 27.—R. G. Dun & company's weekly review of trade says:

Favorable industrial conditions remain unchanged and new production is proceeding at an enormous rate. All through the west the talk of the people concerned things actually produced and wealth created from the soil. Warm weather checked the activity in some mercantile lines, and high prices and speculative developments work unfavorable in others. This gives a superficial impression of a pause in business revival. But the basic facts still point to a remarkable industrial expansion.

Orders for steel products are even greater than the remarkable tonnage booked in October. With a new higher basis for cotton prints, effected during the week, a somewhat smaller volume of business by jobbers than is customary is reported. The demand for woollens and worsteds continue active, especially in the west. The footwear business is larger than any time in two years. Leather continues strong. Domestic

hides are steady, notwithstanding that the quality is growing poorer.

PILES CURED IN 6 TO 14 DAYS. PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

The Casualties.

New York, Nov. 27.—With the close of the football season, statistics show that twenty-nine players lost their lives through the game in various parts of the country this fall, according to a list made public here.

Including the two young men who are believed to have been mortally hurt in yesterday's games, twenty-two players were so severely hurt, it was thought they would die. Minor injuries mounted into the hundreds. In 1908 there were thirteen deaths from football injuries and in 1907 there were fourteen.

But Yet a Woman.

Accustomed as we are to view Mrs. Donald McLean, Honorary President General of the Daughters of the American Revolution, in the limelight of the platform and big national conventions of D. A. R., where she has held the gavel with no uncertain hand and conducted some masterly campaigns, it gives us a delightfully "homey" feeling to find her as wholly feminine as the following from the D. A. R. National Monthly would indicate:

"Two hundred years ago last month the thimble was invented by a man, and 'tis said that so glad and grateful were the women for the comfort to the hand and the preserving of its beauty, by the use of the tiny indented cone, that acclaims of joy rose into psalms of thanksgiving. The inventor was well nigh canonized then and now he is soon forgot! In fact, I fear I may be looked upon as disloyal to the advanced interests of women, by the bare mention of the thimble. What is a thimble to the ballot or the ballot to the thimble? If incompatible, where is the domestic heroine who would openly espouse the cause of Thimble? And yet—and yet—methinks we harbor a stealthy fondness for the little implement. In fact, all this writing of it brings me the gist of this letter. Do those women who have tasted the excitement of semi-public life, whose energies have had great play in office-holding in organizations whose intellectual faculties have been exercised, rather than the faculties of the house-

DON'T BE BALD.

Almost Any One May Secure a Splendid Growth of Hair.

You can easily find out for yourself if your hair needs nourishment, if it is thinning, getting dry, harsh and brittle, or spitting at the ends. You simply have to pull a hair from the top of your head and closely examine its root. If the bulb is plump and rosy it is all right; if it is white and shrunken your hair is diseased and needs nourishment.

We have a remedy for hair troubles that cannot be surpassed. It has a record of growing hair and curing baldness in 93 out of 100 cases where used according to directions for a reasonable length of time. It will even grow hair on bald heads if the scalp is not glazed and shiny. That may seem like a strong statement—it is, and we mean it to be, and no one should doubt it until they have put our claims to an actual test.

We are so sure that Rexall "93" Hair Tonic will completely eradicate dandruff, prevent baldness, stimulate the scalp and hair roots, stop falling hair and grow new hair, that we personally give out positive guarantee to refund every penny paid us for Rexall "93" Hair Tonic in every instance where it does not do as we claim or fails to give entire satisfaction to the user.

Rexall "93" Hair Tonic is as pleasant to use as clear spring water. It is perfumed with a pleasant odor, and does not grease or gum the hair. We have it in two sizes, prices 50 cents and \$1.00. We urge you to try Rexall "93" Hair Tonic on our recommendation and with our guarantee back of it. You certainly take no risk. Remember, you can obtain Rexall Remedies in Paducah only at our store.—The Rexall Store, W. B. McPherson, Fourth and Broadway.

wife and hearthstone, do such women lose completely the love of the thimble, and all that it symbolizes? It seems to me only a fair variety of topic to consider this question a bit, since my last letter was given up to chat on the Suffrage. My mind first laid hold upon such question, because of a remark made to me some months since by a woman of nation-wide reputation. Her public work has lain largely in the broader fields of philanthropy and education; she has provided for years over an organization, which was a pioneer in example and fruitful of attainment; her personality has inexpressible charm and her manner is the fine flower of social life and 'class' at its best. Compelled by hard-hearted physicians to complete rest from her usual active avocations, so many and of such long habit, as, seemingly, to constitute her life, she said to me: 'My dear, I find I still love to patch!'

"Oh! Apotheosis of the eternal feminine!"

Mrs. Flournoy in Nashville.

Friday's Nashville Banner says: "Mrs. H. Blair Smith was hostess of an informal but charmingly planned luncheon for a party of eight today, entertaining in honor of her guest, Mrs. George Flournoy, of Paducah, Ky., and Misses Katherine and Lucille Schiff, who are visiting their aunt, Mrs. Leslie Warner.

"A delightful luncheon menu was served at a pretty table decorated with pink and white carnations, and the same colors reappeared in the confections. Seated at the table with the hostess and honor guests were Mrs. Gullford Dudley and her guest, Miss Nancy Galloway, of Memphis; Miss Anna Russell Cole and Miss Emma Spencer.

"Mrs. Flournoy returns to Paducah tomorrow, after a two weeks' visit to Mrs. Smith, during which she has been much entertained."

Matinee Musical Program.

The "Ensemble Program" by the Matinee Musical club on Wednesday afternoon at 2:30 o'clock at the Woman's club building will be under the direction of Miss Courtie Puryear and will be attractively featured as follows:

2. Quartet for ladies' voices, "There, Little Girl, Don't Cry" (Campanella)—Mrs. Brooks, Mrs. Krug, Miss Rogers, Mrs. Hart.

Paducah Man Marries in Princeton.

The Caldwell County News makes mention of a Princeton-Paducah wedding as follows:

"Mr. Charles Pryor, of Paducah, and Miss Nannie Mae Brown, of this city, were quietly married Wednesday afternoon at the home of Mr. and Mrs. Reece Angle, on North Jefferson street, by Dr. Stubbfield, of Dawson, only immediate relatives of the bride being present.

"The room was beautifully decorated with ferns and cut flowers and softly lighted with one handsome shaded lamp and candles. The bride

looked charming in a dainty creation of pale blue silk and carried a bouquet of white chrysanthemums, the groom wearing the conventional black. Immediately after the ceremony the happy couple left on the 4:55 train for Paducah, where they will make their future home. The bride wore a beautiful going-away gown of silver grey cloth, with hat and gloves to match. Mrs. Pryor is the youngest daughter of Mrs. Labe Brown and is one of Princeton's most popular young ladies, whose sunny disposition has won for her a host of friends, who are loth to give her up.

"Mr. Pryor is certainly to be congratulated on winning the heart and hand of so fair a bride. The groom is one of Paducah's most worthy gentlemen, and is at present in the employ of the Illinois Central railroad as conductor, and is very popular in railroad circles."

Nashville Dinner With Paducah Guests.

Mr. and Mrs. Leslie T. Thacker entertained last evening at their home, 318 Arrington street, with a delightful 6 o'clock dinner. The table was ornamented with a Battenberg scarf and in the center of the table was a cut glass vase filled with white and pink chrysanthemums. A delightful menu of three courses was served. Those enjoying the hospitality were: Mr. Charles Edw. Langhame and Mr. Chris Pingle, of St. Louis, Capt. and Mrs. Joe St. John, of Paducah, Ky.; Mrs. G. D. Thacker, of Hopkinsville, Ky.; Mr. and Mrs. W. J. Pardue and family, Mrs. Thacker was assisted in receiving the guests by her sister, Miss Alvine Pardue.—Nashville Banner, Nov. 26.

BE YE THANKFUL.

"Oh be ye thankful"—that is for the glad,
"How can I be?" the broken hearted cries,
Who in the deep, dark reaches of the night
Pray but for peace with weary, tear-sad eyes.

Lift thou, oh God, our hearts from out the dust!
Take thou our hands and lead us to the light!
For thou alone can guide; and faith sustain
In these thy servants who have fought the fight.

Be thankful for the loved ones that have been,
E'en though they've passed into "the other room";
The beauty of their lives will be a lamp
Unto our feet, and lighten all the gloom.

Be thankful for the dreams of lips and eyes,
Of arms that wrapped in deep, abiding trust;
For tender memories that softly steal into our hearts, like shadows of a shade
And quicken into life the shapeless dust;

And in the gloaming, when the lights are low
With sweet dream-faces people all the dusk—
As from the folds of dear things laid away
There but remains of some sweet, dead perfume
The subtle scent of cedar and of musk.

But oh so subtly sweet we would not give
These cherished visions for all Ophir's gold.
For well we know they are the lengthening chain
That binds us close to all we keep most dear—
And heaven itself the other end doth hold.

Oh be ye thankful for the love that lives,
That we may daily read in tender eyes;
And that for them with holy joy we toil—
For we who love know love means sacrifice.

Be thankful for the bounty spread around;
That we walk not in darkness, but in light;
For us the beauty of earth, sea and sky;
And that we are not blind. Praise God for sight.

God of the harvest we give thanks to thee;
For rain and sun, aye and bleak winter's snow;
For just a little bit of all must be
To make the perfect fruit; the rose the rose's blow.

Let heart and voice and soul and lifted eyes
Proclaim His praise from earth and sea and skies;
Let all the world one grand Te Deum sing
Till vale and mount with answering echoes ring.

"Praise God from whom all blessings flow,
Praise Him all creatures here below,
Praise Him above, ye heavenly hosts,
Praise Father, Son and Holy Ghost."

Thirteen grams of radium chloride have been produced at the Imperial Austrian radium factory, located at St. Joachimsthal. It is estimated that this mineral has a value of \$45,000 to \$50,000 a gram, or more than \$50,000 for the entire amount. Pure metallic radium is never seen.

JOHN DOE TRADE A Case For Your Consideration.

GETS A HARD KNOCK ON FIRST OF NEW YEAR.

New Federal Criminal Code Prohibits Such Shipments Into the Dry Territory.

Washington, D. C., Nov. 27.—Thirty states are hit by the new United States criminal code which limits C. O. D. whisky shipments. No more "John Doe" trade after the last day of this year. After January, 1910, there goes into effect a new criminal code. It was passed upon by congress during a stolen moment from the tariff consideration of the extra session and legislators who have not before had time to read it are likely to have their attention called to its provisions in a demand for an "explanation" which will make the Nicaraguan crisis sound like a fancy tale. The prohibition people hope that it will put a crimp in the practice of shipping liquor "C. O. D." into prohibition states and cut off that last source of supply which had been regarded as inviolable.

"No railroad company or carrier," says the code "shall ship liquor into a prohibition state to other than the bona fide consignee. Violation of this section is punishable by fine or \$5,000 and two years imprisonment or both."

Not content with this restriction of the supply, the matters of the code set down that every package which does not bear the name of the person to whom it is shipped, the kind of liquor which it contains and the quantity upon the outside may be seized and condemned.

Here is the climax which has made the thirsty in the prohibition states wonder if the code committee could have been "packed" against them. It says that it shall be forbidden to collect the purchase price of liquor shipped as interstate commerce, "either before, on, or after delivery."

Louisville, Ky., Nov. 27.—Thomas Hoal, the boy bandit, who on November 11 killed Cashier J. Carey Fawcett, of the Merchants' National Bank of New Albany, Ind., and dangerously wounded President J. K. Woodward and a negro chauffeur in an attempt to hold up the bank, was arraigned at a preliminary hearing at midnight.

The hearing was dramatic and stealthily arranged. Hoal was roused shortly before midnight from his cell at the Indiana Reformatory at Jeffersonville, placed in an automobile and hurried to New Albany, four miles away. Within half an hour after leaving the reformatory where he had been kept since the

hold-up, Hoal had been arraigned before Judge Utz, of the Floyd county court, had pleaded not guilty to indictments charging murder, assault with intent to kill and assault with intent to rob, had been remanded without bail and was on his way back to the reformatory.

The secrecy of the proceedings was deemed necessary by the officials on account of the strong feeling still prevailing against the prisoner in New Albany. The date of Hoal's trial has not been definitely fixed.

Mrs. Mary A. Brandon Has Immense Relief From One Bottle of Quaker Extract, After Suffering For 18 Years.

For over 18 years Mrs. Mary A. Brandon, who lives on the outskirts of this city, suffered untold agony from the ravages of rheumatism. She also had a bad case of stomach trouble which added to her sufferings. She doctored and treated continually without success, and was on the verge of having to go to her bed, when her husband called on Fisher, the Quaker Health Teacher, at McPherson's drug store, and purchased a treatment of the Quaker Herb Extract and the Oil of Balm. She has now used less than one bottle and in so short time, reports that she has actually found more benefit from this remedy than from anything she has used during that long 18 years of suffering.

Mrs. Brandon will be only too glad to verify this report to any person in Paducah who wants to hear it from her own lips. Her mail address is, General Delivery, Paducah, where you can write her a line.

When Fisher was asked if this did not seem remarkable, he said: "Nothing remarkable about it in my estimation, for the same thing happens a great many times in every town I visit. Quaker Herb Extract is a pure herb remedy, containing no chemical or mineral poisons, there-

fore it does not force the organs to work, but instead it cleanses them of all poisons, and then assists nature to put them in proper condition to perform their functions naturally."

If you are ailing, dragging around every day, have become skeptical of all remedies because you have failed to receive any benefit from what you have used, you are the one Fisher wants to talk to. He will prove beyond the question of a doubt that the claims he has made and is now making are absolutely true. It costs nothing to talk to him. If he knows the Quaker remedies will not benefit you he will lose no time in telling you so. Therefore come with confidence, and you will never regret it.

For catarrh in any form, rheumatism, liver, kidney, stomach or blood troubles, also for the expulsion of any worms, Quaker Extract is a cure—not just a temporary relief.

Fisher is at McPherson's drug store, corner Fourth and Broadway from 9 a. m. until 9 p. m. daily.

Those who cannot call for the remedies may have them sent on receipt of the price, Quaker Herb Extract, \$1.00; 3 for \$2.50. Oil of Balm (Liniment), 25c.

Fisher proves what he says.

The Herpicide Girl is Thankful

At this season of Thanksgiving I know of nothing that I need to be more thankful for than Newbro's Herpicide. Thousands of ladies but all over the world feel the same way about it. To this wonderful scalp and hair remedy they owe their soft, long, beautiful hair.

Most hair troubles come from dandruff. Newbro's Herpicide removes this dandruff by killing the germ which causes it. It also stimulates a flow of blood which nourishes the follicles. The scalp being healthy, the hair does not come out and the new hair is allowed to grow.

There are other preparations which they say are "just as good" as Herpicide. It is not advisable to try them. Instead of doing any good they may do positive harm.

No one is ever disappointed in Newbro's Herpicide. The results are always the same, always satisfactory as is indicated by the fact that Herpicide has been sold for years and has thousands of satisfied friends. It is the only genuine, original dandruff germ destroyer. There is nothing "just as good."

One Dollar Bottles are sold and guaranteed by all druggists.

Applications at good barber shops.

Daily Thought.

The most desolate lives are those that are lived for life's furniture only.

There once was a man named Loeb,

In the customs he wielded a proeb.

Could he not trust 'em,

He eust 'em and bust 'em—

Cost many a man-an his joeb.

It is possible that some people consider Joe Cannon a sort of national hookworm?

Unfortunately, most Paducahans who witnessed the eclipse this morning, did not know which one it was.

"The finger of probability points strongly to Williams Jennings Bryan," says the Shelby Record. Accusingly or prophetically?

Those fever charts, published as diagrams of football plays, also register the temperature and pulse of the folks on the sidelines.

Our peppery little South American sister may regret her boycott against our goods, when we make up our mind not to take any more Chili sauce.

That Owensboro boy, who swallowed carbolic acid Thanksgiving because he had nothing to be thankful for, should have been thankful that he had carbolic acid.

England better be careful about inciting Canada to build war vessels and establish a navy yard. Canada may take a notion to "benevolently assimilate" Great Britain some day.

Colonel Roosevelt, having just heard of the discovery of the north pole, sent congratulations yesterday to Robert E. Peary. But even Theodore Roosevelt can't revive interest in that stale bit of news.

We anticipate that, as the time for the December session draws nigh, much of the more flamboyant opposition to Joe Cannon will resolve itself into a tentative offer of peace on condition of his support of a pet measure.

We suspect that deadly mince pie, concocted by Jersey City bakers at the instigation, it is believed, of the insurgents, was confiscated by the secret service at Washington, whose duty it is to protect the life of the president.

There is a difference of just one letter in the last names of Dr. Charles H. Parkhurst, the New York preacher, and Dr. Emmaline Gould Parkhurst, the London suffragette; yet it is equivalent to the difference between consonants and consonance.

"That goose which upset the telephone service around Paducah," says the Louisville Post, "was not as useful as its ancestors which managed to save Rome." It is the prevailing opinion that the goose heard the quotations on turkey going over the wire and in its agitation entangled itself.

This is a suggestion to the pastors of the city for next year: Why not hold a union Thanksgiving service at one of the churches? It is a national holiday of thanksgiving, and it would be much more impressive, pleasant and effective for permanent good, if one church should be crowded that morning with representatives of all denominations, but one common country, and all returning thanks to the same God for preservation, national integrity and purpose.

Carefully compiled statistics of casualties of the football season, which closed with Thanksgiving, show that only 29 college and high school boys were killed, 22 probably fatally injured or permanently disabled, and a few hundred sustained broken bones. Thus the great national feast day falls far behind Christmas and the Fourth of July in the accumulation of its horrors.

THE SHERMAN LAW.

Old Senator John Sherman, author of the anti-trust law, died when Mark Hanna was at the zenith, and never saw his law of 20 years

ago in actual operation. Another comet of different magnitude, Harriman, flashed across the national sky before the inevitable happened. It may be the Sherman law will not avail everything; but the Standard Oil interests were behind the Harriman ventures, and so phenomenal a career would have been impossible without almost unlimited credit at all times. A break in the chief source of revenue of this gigantic combination of wealth and brains and physical property, might leave Harriman without a rival among posterity.

NOTHING NEW UNDER THE SUN.

Why should contemporaries become unduly alarmed over the renaissance of the sheath and tute gowns after 3,500 years? It is not a sign of decadence. The world advanced during the 3,500 years succeeding the first appearance of the strange costume, and will continue to progress until another cycle brings the gowns into vogue again to startle a new generation. Unfortunately the straight form of our modern show girl, consigned to the transitory glory of a flaming paper poster, will not live, like the carved cunei-form of her ancient Egyptian sister, to bear witness before posterity to the wisdom of the sage, that there is "nothing new under the sun."

AS TO THE CURBING.

While we know nothing about the relative usefulness of concrete and granite for curbing, we believe the engineering department and the board of public works and general council acted in good faith in the specifications for the west end sidewalk work, and we suggest that property owners, who have some doubt about the wisdom of using the more expensive material, call on the city engineer or the members of the board of public works and ascertain at first hand the truth about the matter. Some people, we apprehend, stand ready to foment dissatisfaction with what the board has done. At the same time, we recognize the fact that property owners wish to have the work done as cheaply as possible.

STATE PRESS.

As to Judge Campbell.

Someone writing from Paducah to the Courier-Journal suggests that if President Taft is looking for a southern Democrat for justice of the supreme court, Paducah has the man in the person of Judge James Campbell, who is not only of a distinguished family of lawyers and jurists, but is the acknowledged peer of the best lawyers in Kentucky. While of course it is not likely that President Taft will offer the justiceship to Judge Campbell, we agree with the Paducah writer that he is a type of southern Democrat that would reflect credit upon the administration should the President take it into his head to offer him the appointment. Judge Campbell is one of the most delightful men of the old school of lawyers which one does not meet with every day in these changed times.—Clinton Gazette.

WITH THE MAGAZINES.

Yes, But What Was the Lady's Age?

Toward the close of a recent lawsuit in Massachusetts, the wife of an eminent Harvard professor arose and with a flaming face timidly addressed the court.

"Your Honor," said she, "if I had told you I had made an error in my testimony, would it vitiate all I have said?"

Instantly the lawyers for each side stirred themselves in excitement, while his Honor gravely regarded her.

"Well, madam," said the court, after a pause, "that depends entirely on the nature of your error. What was it, please?"

"Why, you see," answered the lady, more and more red and embarrassed, "I told the clerk I was thirty-eight. I was so frustrated, you know, that when he asked my age I inadvertently gave him my bust measurement." Everybody's Magazine.

CENSUS DIRECTOR PLANS QUESTIONS

DURAND RECEIVES SCHEDULE FOR NEXT APRIL.

Nearly Seven Million Separate Farms in the United States of America.

LOTS OF PAPER TO BE USED

Washington, D. C., Nov. 27. (Special.)—Census Director Durand has received from Assistant Director William F. Willoughby the general schedule for the census of agriculture, April 15, next, which Mr. Willoughby, in conjunction with Prof. LeGrand, chief statistician for agriculture, and the advisory board of farm economists and other agricultural experts, has been formulating during the summer.

Director Durand has approved the form and sub-division of the inquiries and has ordered nine million copies of the schools to be printed by the government printing office in readiness before January 1, although they will not be placed in the hands of the 45,000 farm enumerators until the usual time before the enumeration date. It is believed there are nearly seven million separate farms in the United States, each requiring a separate schedule.

The schedule is printed on both sides of a single sheet, 13 inches long and 16 inches wide, of white writing paper, 26 to 32 inches. There is a three-inch wide column of instructions to enumerators on both sides of the sheet so that it can be cut off after the filled-in schedule has been returned to the census bureau. This makes the schedule smaller in size and better adapted for handling in tabulation than previous schedules. A separate book of instructions to enumerators supplements the schedule information.

The nine million copies will consume 4,500 reams of paper, which, counting 52 pounds to the ream, will make a weight of 234,000 pounds. The charge for printing, including the cost of paper, will be \$13,660. The schedule is so standardized that it will feed on the perfecting press used at the government printing office, which makes 9,000 revolutions per hour and prints four schedules each revolution, or a product of 36,000 per hour, as against the old-fashioned presses used on the 1900 schedules with a speed of from 1,200 to 1,500 revolutions per hour. It will take about three weeks to print them with the press running sixteen hours a day.

VOICE OF THE PEOPLE.

The Old Church Clock.
Editor The Sun, Paducah:
Dear Sir—Your editorials are always interesting and never more so than when discussing church or religious problems; but the one on the clock in the tower of the First Baptist church, I fear, has made an erroneous impression. Of course the city and not the church is responsible for the dilapidated condition of the clock. This you failed to say, and left the unknowing to suspect the church. For many months I have talked that clock to city officials and tried to get something done to it. I am glad to have your assistance. Sincerely,
M. E. DODD.

ACCOUNT OF HIS DEATH AT RIDGEWAY, ILL.

Had Been Traveling for a Barber Supply House of Evansville.

The Ridgeway (Ill.) News, of November 25, contains the following account of the death of James M. Bruce, formerly of Paducah:

"James M. Bruce, the subject of this sketch, was born in Gallatin county, Illinois, October 3, 1868, died at the home of his parents, Mr. and Mrs. B. F. Bruce, in this city, Saturday, November 20, 1909, aged 41 years, 1 month and 17 days.

"He was married to Miss Mattie Kookindoffer, December 24, 1890, at Ridgeway, Illinois. To this union two daughters were born, Maggie and Alma, all of whom survive him.

"Maggie, as he was familiarly called, was born and reared near Ridgeway, hence was well known to most of our people. For several years past he had resided in Kentucky, living for a time at Dixon, where he held his membership in the I. O. O. F. lodge. Later he moved to Paducah, which was his home at the time of his death.

"He was a barber by trade, and an extra fine workman, having held first chair in several large shops. For some time past he had been traveling for the DeVry Barbers Supply company, of Evansville, Ind., and built up a good trade. He was of a jovial and friendly nature and numbered his friends by the score.

"Funeral services were held at the M. E. church in this city Tuesday morning at 10 o'clock, conducted by the Rev. M. B. Holloway, assisted by Dr. J. B. Green both of whom talked very tenderly and feelingly, in the presence of a large and sympathetic

HE COULD RUN

POLICE SERGT. CROSS HAS LONG, LIVELY CHASE.

Captures Unknown Negro Who Can't Tell His Name to the Police.

A chase over hill and dale that cost Sergeant Lige Cross, of the police department, an extra amount of breath and a skinned nose, began at Union station this morning, shifted over to William Moore's grocery, Seventeenth and Tennessee streets, and ended in the hollows in Worten's addition, when the officer, panting more than his captive, arrived at police headquarters. The negro that led the sergeant a merry-go-round route is believed to be crazy and was unable to disclose his name. No charge was preferred against him, and from the beginning his actions have led the police to believe him a lunatic.

Sergeant Cross left police headquarters early this morning and went to the Union station, where he was holding down the platform. The negro is said to have approached the sergeant and asked for a ham sandwich. Sergeant Cross told him to go with him into the restaurant and he would get him one, and the negro obeyed. Then the fun began. The negro, thinking he was under arrest, darted through the restaurant and out the other door. Down Red Row he sped like an antelope with Sgt. Cross shouting for him to halt. Going over to Moore's grocery in Tennessee street, he was telephoning the police station to look out for the negro, when his attention was called to the same man walking past the store. He darted out after him and the negro got up steam and went skimming along. Lacking a speedometer the officer was unable to figure how far he ran the man before the "touchdown" was made. Anyway, it was between one and two miles.

The negro was locked up and will be held until he is able to talk.

Anty Drudge's Opinion.

Mrs. Doubtful—"Which kind of soap do you like best, Anty, yellow or white?"

Anty Drudge—"I'd rather have a yellow soap that makes the clothes white than a white soap that makes them yellow. Fels-Naptha makes the clothes white as snow. It's yellow because that is the natural color of soap when it hasn't been bleached and weakened by chemicals."

Perhaps a woman feels more like working in Winter than Summer.

Perhaps she feels more like pitching in and doing a big week's washing.

But that's no reason why she should boil her clothes and wash them in hot water.

No reason why she should fill her house with nauseous steam and run the risk of catching a bad cold.

No reason for reddening hands and face by hot water and steam.

No reason for breaking her back over the washtub, hard-rubbing.

No indeed. Washing with Fels-Naptha soap in lukewarm water is just as sensible in Winter as in Summer.

Let Fels-Naptha save the boiling and hard-rubbing.

Let it do your washing in half the time of the old way.

Save your energy for something else.

If you don't know the Fels-Naptha way of washing by heart, read and follow the simple directions printed on the red and green wrapper.

Tells also how to best wash flannels, woollens, colored things.

CLARK READY TO OCCUPY PALACE

COPPER KING SAYS TOM LAWSON A DANGEROUS MAN.

Former Senator Is Surprised at the Growth of Socialism Abroad—Lords Will Reject Budget.

ONLY INTEREST IN HIMSELF.

New York, Nov. 27.—Senator William A. Clark, who is worth about \$150,000,000, believes that Thomas W. Lawson, the Boston stock operator, is a very dangerous man. Mr. Lawson had a page advertisement in several morning newspapers, telling what he thought about the order of the United States circuit court for the dissolution of the Standard Oil company. And the millionaire senator was asked about that just as he got off the Mauretania from a visit to Europe. The fact that he had not read it didn't keep him from telling what he thinks about Lawson.

"Lawson is a very dangerous man," he said. "The only interest he has is self-interest. He does not spend thousands of dollars in advertising in order to benefit the community, but to work the stock market for himself."

The senator for the first time in many years told about his Fifth avenue palace, the slow work on which has made it a mystery to New Yorkers. The construction was started seven years ago and it has dragged along with no prospect of its being finished as far as could be learned.

Against Fast Steamers. But now it is about finished, said the owner; it will be finished within a month. Then he will bring his family from Paris and live in the house, one of the most magnificent private homes ever built.

Senator Clark will never ride across the ocean again on the Mauretania nor any other of the fast liners. "It is the first time I have come across the ocean on a fast boat," he said, "and it will be the last. These boats roll too much."

He said he found financial conditions in Germany and France good, but the discussion over the budget in England had upset things there. What impressed one of the richest men in the world most, however, was the march of Socialism in Europe. "Socialism is spreading all over Europe," he said. "The government of France is practically Socialistic now. No one can foretell the future of Socialism. Socialism shows itself very strongly in the British budget. It is spreading all over England as well as on the continent."

Standard Big Corporation. "The budget affects so many persons that there is a general opinion in England that it won't go through. There is no question that the house of lords will reject the budget, or rather that they will postpone action to put the question before the people."

Then an effort was made to get the senator to talk about the Standard Oil decision. "I cannot discuss that now," he said.

"Do you think that the Standard Oil company is a bad thing for America?" "It is a very big corporation," he replied, but he wouldn't meet the question. "I have no affiliations with large combinations. I have always preferred to run my business myself. I have no directors to answer to and if anything I undertake is not a success I must answer to only one man. If I succeed I have myself to thank. So far my system seems to have been satisfactory," and he smiled, for his system had so far netted him \$150,000,000.

Dr. Pierce's Common Sense Health Talks

No man is stronger than his stomach. Make your stomach strong and you thereby fortify your system against the attacks of a long list of diseases which originate in the stomach and must be reached, if at all through the stomach. Thus torpid, or lazy liver, biliousness, dyspepsia, impure blood and various skin affections originate in weak stomach and consequent poor nutrition. The same is true of certain bronchial, throat and lung affections.

Dr. Pierce's Golden Medical Discovery

Strengthens the stomach, invigorates the liver, purifies the blood making it rich, red and vitalizing and thereby curing the above and kindred affections.

It's foolish and often dangerous to experiment with new or but slightly tested medicines—sometimes urged upon the afflicted as "just as good" or better than "Golden Medical Discovery." The dishonest dealer sometimes insists that he knows what the proffered substitute is made of, but you don't and it is decidedly for your interest that you should know what you are taking into your stomach and system expecting it to act as a curative. To him its only a difference of profit. Therefore, insist on having Dr. Pierce's Golden Medical Discovery. If not promptly supplied trade elsewhere.

READY TO GARNER CORPORATION TAX

TWENTY-FIVE MILLIONS EXPECTED TO BE DERIVED.

Uncertainties About Effect of Law—Corporations Should Write for Blanks.

RULES GOING TO THE PRINTER.

Washington, Nov. 27.—Secretary of the Treasury MacVeagh and Commissioner of Internal Revenue Cabell reported to President Taft that the corporation tax regulations are complete and ready for the printer.

The latest estimates indicate that the act will produce a net revenue approximating \$25,000,000 annually. Twenty-two thousand corporations are likely to have to pay corporation taxes.

There are many uncertainties about the effect of the law. In one of the far southwest states, for instance, it has been found that not over 10 percent of many thousands of corporations, whose official existence was authorized, have ever actually done business.

Improper registration in many cases is fully expected with such a gigantic scheme, but the series of penalties under the law will apply just the same to those who fail to get the forms and regulations. The mailing of the forms and blanks to every corporation listed in the various districts is not specifically required by law, and will be done merely to assist the corporations. Those not registered should apply immediately to the collectors. All the returns are required to be in the hands of the district collectors by March 1, then sent to the internal revenue bureau here, where the tax will be assessed and the taxpayer corporation notified by June 1, the tax to be paid by July 1.

The government takes the position that the tax, while it is for the calendar year preceding the collection, really does not date back; that it is an excise and not an income tax, and that it is, in fact, merely a license to do business during the year for which it is collected.

Mrs. Louie Hite, 428 Outlen St., Danville, Ill., writes, October 1st: "Foley's Kidney Pills started me on the road to health. I was treated by four doctors and took other kidney remedies but grew worse, and was unable to do my household work, and the doctor told me I could only live from two to six months. I am now so much better that I do all of my own work, and I shall be very glad to tell any one afflicted with kidney or bladder trouble the good results I received from taking Foley's Kidney Pills." SPEED ON THE CANAL

APPROPRIATIONS COMMITTEE WELL PLEASED

Senator Crawford Favors Reduction of Canal Commission and Predicts Reduction of Estimate.

Havana, Nov. 27.—The American congressional appropriations committee, which has been inspecting the Panama canal, arrived here this morning from Colon by the steamer Cristobal. The members were received by President Gomez and spent the day sightseeing. They expect to sail

early tomorrow for New York.

They said they all were greatly pleased with the progress of the work on the canal and believed it probable that the channel would be completed and open for navigation in advance of the estimated date.

Senator Coo I. Crawford, of South Dakota, said all the members of the committee were highly impressed by the splendid work of Col. Goethals, chairman of the canal commission and chief engineer of the work. They were convinced, he said, of the desirability of the passage of the bill of Mr. Mann, of Illinois, which passed the house during the last session of congress. This bill is designed to reduce the number of canal commissioners and simplify the administration, which would give Col. Goethals a free hand. It is also probable that the commission will recommend a reduction in the estimates of the canal commission.

S.S.S. NATURE'S CURE FOR RHEUMATISM

In a disease so painful as Rheumatism, medicines containing opiates and nerve-quieting drugs are often used. Such treatment is dangerous not only because it frequently causes the sufferer to become addicted to the drug habit, but medicines of this nature are always injurious to the system. Rheumatism is a disease of the blood, and its cure depends entirely upon a thorough purification of the circulation. As long as the blood remains saturated with uric acid, an inflammatory condition of the nerves, muscles and tendons of the body will exist, and the pains, aches, soreness, and hot, feverish flesh of Rheumatism will continue. The one safe and sure cure for Rheumatism is S. S. S. It is nature's remedy for this disease, made entirely of the healing, cleansing juices and extracts of roots, herbs and barks from the natural forests. S. S. S. does not contain anything that is in the slightest way injurious to the system. It is absolutely and purely vegetable, and free from opiates or sedatives of any kind. S. S. S. cures Rheumatism by removing the uric acid from the circulation, it makes the blood pure, rich and healthy so that instead of depositing sharp, uratic impurities into the muscles, nerves, joints and bones, it nourishes every portion of the body with natural, healthful properties. CANNON AGAIN DEFENDS RULES

ALSO TAKES ANOTHER DIG AT INSURGENTS.

Scores Champ Clark in Speech Last
Night at Kansas City, Mo.—
Says Cummins and Others

JOINED BRYAN AND FOLLOWERS

Kansas City, Nov. 27.—"When Senators Cummins, La Follette and Bristow and their so-called 'progressive' following, join hands with Bryan in making war upon the Republican members of congress who passed the tariff bill, and upon the president who signed it, in that contest I know but one way to treat them, and that is to fight them just as we fight Bryan and his following."

Such was the declaration of Speaker Cannon, who delivered the principal address before the Knife and Fork club. Cannon said Cummins alone had read himself out of the Republican party. He defended the house rules, saying that they remain substantially as they have been, and are as long as there is a congress. Ever since history began, said the speaker, "the man in the minority has been seeking some device by which he could overcome the will of the majority."

Cannon asserted that, while the Payne tariff law is the best ever passed under Republican leadership since the enactment of the law the production in this country and the imports from foreign countries have greatly increased, and the conditions are daily improving.

"The insurgents and their followers," he said, "are seeking to hinder the progress and prosperity by criticism and denunciation."

"The demagogue we have always with us, and as ours is a government of the people, the only way to dispose of him is to move on. I am perfectly willing to trust to the verdict of the prosperous and happy people in the elections in November, 1910, after the new tariff law has been in operation over a year."

Continuing, Cannon said:

Insurgents Inconsistent.

The senators and representatives who call themselves "insurgents" and who voted against the enactment of the Payne bill, voted to increase or maintain the duties on the industries and products of their own states and sections. They were protectionists for their own people, but they were opposed to protection for other people in other sections.

Senator LaFollette did not vote to increase the duties on lead and zinc, but he defended the finance committee's schedule on those products in speeches, saying they were not high enough, explaining, however, that he could not vote on the question because he said he had a personal pecuniary interest in the outcome.

Senators La Follette and Bristow and the other insurgents voted to increase the duty on barley and barley malt for the reason that their constituents produce barley. In other words, these gentlemen who call themselves "insurgents" voted with the Republicans on schedules that protected the products of their constituents and with the Democrats on schedules that protected the products of other sections of the country. That was their right, but when they voted with the Democrats against the final enactment of the bill they voted to maintain the old schedules of the Dingley law and were not supporting the pledge of the Republican platform or the pledge made by President Taft.

There was not one member of the Republican majority who secured in the bill as enacted all that he had contended for. President Taft, Senator Aldrich and myself all accepted more compromises than the so-called "insurgents" were asked to accept. In Illinois we wanted free lumber, and my constituents wanted a duty on petroleum because they have the greatest independent oil producing district in the world. We were beaten, but we did not make our own interests the only interpretation of the Republican pledge to revise the tariff.

Taft vs. Senator Cummins.

Senator Cummins declares that the Payne law is a repudiation of the Chicago platform. President Taft, when he signed the bill made a public statement in which he said:

There have been a great number of real decreases in rates and they constitute a sufficient amount to justify a statement that this bill is a substantial downward revision and a reduction of excessive rates."

In his Winona speech the president declared:

"The Payne tariff bill is the best tariff bill the Republican party has ever passed."

Senator Cummins declares that the issue from now until the national convention in 1912 is: Shall the men now in control of party destinies be permitted further to disregard plain party platforms?

President Taft is the recognized leader of the Republican party and the great majority of Republicans are his followers. The president and the Republican majority in congress co-operate in the legislation that has been written on the statute books. With whom did Senator Cummins co-operate? Let the record of the votes

Mr. C. Happy, Hardin, Ray Co., Mo., writes: "I can safely recommend Peruna as a remedy that will cure all catarrhal troubles."

"It was of great benefit to me, as it cured me of catarrh of the throat, and I took a very bad cold and had a gripe last February. It settled in my throat and lungs. I took three bottles of Peruna and it cured me."

"I highly recommend it to all who are sick, and I am glad to add my endorsement to that of others."

on this legislation from beginning to end decide.

Mr. Bryan wants the war against the Republicans who enacted this legislation to go on; Senator Cummins also wants it to go on. When Lincoln found an army marching in the national capital from the south and a body of sympathizers in the north encouraging that army he said it was difficult to determine which was the most threatening to the welfare of the nation.

Champ Clark and the Rules.

Your distinguished fellow citizen of Missouri, the Honorable Champ Clark, has done me the honor on several occasions lately to take issue with a remark made by me to the effect that the fight against the rules of the house was a fight to prevent any tariff legislation. The Associated Press in a dispatch from Sioux City, Iowa, under date of October 22, quoted Mr. Clark as saying:

"This is untrue and is proven untrue by the resolution I offered touching upon the rules which authorized the speaker to immediately appoint the committee on ways and means and that committee is the one that had charge of the tariff bill. The resolution also authorized the speaker to appoint the committees on rules, mileage and accounts. These are all the committees which by any construction could have anything to do with the tariff bill."

If Mr. Clark is correctly quoted by the Associated Press, he did not have a very clear recollection as to what it contained. That resolution adopted for the special session only the rules of the last congress, and authorized the speaker to appoint the committees on ways and means, printing, accounts, mileage and enrolled bills for the special session only. It then pro-

vided that the committee on rules should consist of fifteen members "who shall be elected by the members of the house, said committee to select its own chairman, and then "Resolved, That the following named members of the house be, and they are hereby elected and appointed members of the committee on rules," naming 15 members in his resolution.

Rebuilding Levee Road.

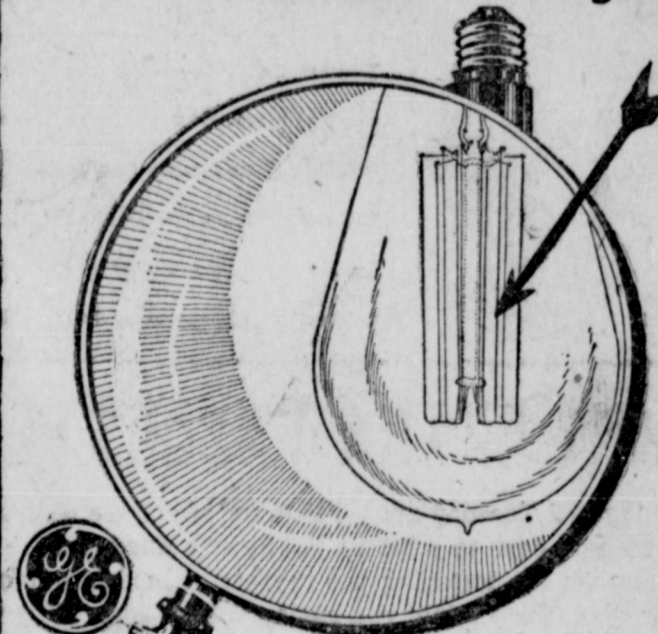

Complaints to the street department by teamsters over the slippery roadway leading up the Ohio levee from the wharfbat at the foot of Broadway, has led the department to experiment with crude oil and limestone screening, the first of which was put down this morning under the direction of Street Inspector Ernest Bell. The department had several barrels of tar-via material left over from the Tenth street work between Broadway and Kentucky avenue, and a supply of home product from the gas works, consisting of a crude black oil, resembling tar-via. The stone screenings are spread over the tar solution and the two roadways will prevent teams from slipping on the cobblestones.

TO DARKEN THE HAIR.

Who does not know of the value of sage and sulphur for keeping the hair dark, soft, glossy and in good condition. As a matter of fact, sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature graying, than sage and sulphur, if properly prepared. The Wyeth Chemical Company, 74 Cortlandt St., New York City, put up an ideal preparation of this kind, called Wyeth's Sage and Sulphur. It is sold by leading druggists for 50c and \$1.00 a bottle, or is sent direct by the manufacturers upon receipt of price. For sale and recommended by W. J. Gilbert.

The monarch, whose age is estimated at about 3,000 years, was lifted aboard the steamer by the seamen at Suez, with New York for a destination.

Ramesses (just which one of the long line of Egyptian sovereigns of that name has not been determined) is a mummy. Although the remains weigh but 125 pounds, they are so carefully packed in lead, iron and wood that with their case they weigh more than 1,000 pounds. On the outside of the case are the words, "Valued at \$30,000." The mummy is consigned simply to the Hamburg-American line, New York.

Uncle Sam will hold an examination for Postal Clerks and Letter Carriers in Paducah, and throughout the country in November; for other positions on different dates. It is estimated that 50,000 appointments will be made this year. The Government wants people over 18 years to take the examination; will pay them and give them an annual vacation with full pay. The Bureau of instruction will fit anyone in a short time to pass the examination. A Government Position means employment for life. Prepare now for the examination. drama because they have nothing else to do.

The actor had just stepped off the Mauretania from his season in London when the reporters surrounded him to get his opinion of the "millionaires' playhouse."

"The idea underlying it," he said, "is un-American. The rich had nothing to do with the inception of the drama, for its fundamental idea was the suffering of the poor."

"The first players selected an open lot for their performances, and secured one of their friends with ability to write a play for them. The rich didn't put up the money then."

"You can't uplift the drama in a gilded incubator. A lot of rich men sell boots in the day time and at night they have nothing to do, so they say, 'we'll show people how to run a theater.' They dedicate their dining room ceiling to the drama and believe this gives them a right to pose as sponsors of the arts in this country. No good can come out of a gilded incubator. What is more, it is against the pride of any artist to be told how to conduct his art."

"The idea of the New theater is un-American. I may add that one dominating characteristic of the American people is a broad sense of humor, and we can generally look for some one to bring out the humorous situation in any enterprise that is largely humorous at some moment when his doing so will cause the whole enterprise to go quickly to smash—just by reason of the humor of it being properly displayed. Watch and you will see some one do so in the case of the New theater."

MURDER RESULTS LOVERS' QUARREL

JOHN WIGGINS, COLORED, KILLS WALTER SCOTT, COLORED.

Fires Bullet Into Victim's Heart as He Flees Up an Alley on Broadway.

THE INQUEST THIS AFTERNOON.

A negro woman, over whom they had been quarrelling, prompted a shooting scrape, which terminated in a murder shortly after 7 o'clock last night, when John Wiggins, colored, a porter at the Illinois saloon, Broadway and Maiden Alley, fired the fatal bullet from a 38-calibre Smith & Wesson revolver into the heart of Walter Scott, 27 years old, a colored waiter at the New Richmond hotel.

Scott died instantly and Wiggins was placed under arrest by Jailer James Eaker and taken to police headquarters. He was transferred to the county jail for safe keeping to await an examining trial in police court this morning. The body of Scott was removed from the alley to Andy Watkins' undertaking shop on South Seventh street, where an inquest will be held this afternoon.

Five shots were fired, two taking effect. One plowed its way through Scott's left hand and one entered at the right shoulder and struck the heart. Thirty paces off Broadway in Maiden Alley Scott fell dead.

The difficulty arose over Maude Chrisman, a negro, sweetheart of Wiggins, who lives at Second and Monroe streets. It is alleged that Scott came between them and Wiggins and the woman fell out yesterday.

day. Wiggins and Scott met shortly after 7 o'clock last night, almost directly in front of the barber shop of D. H. Hays, 121 Broadway, west of Maiden Alley, where they were seen to quarrel in the street just off the sidewalk.

Witnesses say that Scott stepped back to the sidewalk and Wiggins advanced upon him with a revolver in his right hand and a long bladed knife in his left. Wiggins fired the first shot, Scott dodging, and it crashed through the barber shop door, burying itself in a large turnip. Shattered glass cut the hand of Frank Hays, a barber in the shop. Scott turned and fled towards the alley pursued by Wiggins, who fired again, the ball tearing its way through the glass window of Joseph Klein's cigar store on the east of the alley and lodging in the smush of the window. Scott darted up the alley and Wiggins followed, firing. Three more shots were fired, the last one taking effect in the negro's shoulder. It is believed that Wiggins was right upon Scott as he fired the fatal ball, as the right coat sleeve caught fire. Scott fell with a groan and died.

Jailer Makes Arrest.

Jailer James Eaker, who was only a short distance from the scene when the shooting began, rushed up the alley. Wiggins passed Mr. Eaker, who turned and followed him to the Illinois saloon. Inside the saloon Mr. Eaker commanded the negro to surrender. Wiggins held out the knife and revolver. Thinking he was about to be attacked, the jailer drew his revolver and covered Wiggins, who threw down his weapons. Followed by a crowd of curious people, Mr. Eaker escorted Wiggins to the police station, where a murder charge was preferred against him, and he was transferred to the county jail, Sixth and Clark streets.

Capt. Henry Bailey at police headquarters was notified, and the patrol wagon was sent to the alley and the body removed to Watkins' undertaking shop on Seventh street, where this morning the coroner made an

examination of the wounds. The negro's right arm had been torn by the bullet which entered the right shoulder and coursed into his body.

Wiggins was not aware that he had killed Scott on being taken to jail.

The murderer is about 25 years old and has been employed at the Illinois saloon for some time. Scott had been working at the New Richmond hotel for three weeks. Maude Chrisman, around whom the difficulty developed, refused to talk this morning and denied any ill-feeling between the two men. She admitted quarrelling with Wiggins yesterday.

In Police Court.

The case against Wiggins, charged with willful murder, was called in police court this morning, and, the prosecution not being ready for trial, the case was set over until next Tuesday morning. Wiggins secured Attorney Eugene Graves to defend him, and it is the general understanding that he will plead self-defense, although the plea has not been announced. Wiggins sat with the rest of the prisoners this morning with a hung head and was desolate. The court room was filled with spectators, mostly colored.

A Promise to Pay

Would you accept a stranger's note? No. Then why accept from a stranger any other promise to pay? A Fire Insurance policy is such a promise. Ought you to accept it with out knowing all about the Company? Your usual business confidence is based on knowledge. Why make an exception in that part of your business which deals with insurance? A name is worth nothing on any kind of a promise to pay unless it is backed by character and resources.

We favor insurance knowledge, particularly about our companies. Their promises to pay have never gone to protest. Their obligations to its policy holders are backed with such a good reputation and such ample financial resources that the more you know about them the more you will want protection by their policies.
